The model SM is generally used for large recess and can be also fitted on 3 sides shower trays if combined with 2 fixed elements SG.

Sintesi is a shower enclosure system that achieves outstanding results by picking up on the current market trend: combining the aesthetic advantage of having no frame with easy assembly, which is achieved thanks to an innovative adjustable system that is truly within everyone's reach. In the "Tiquadro" version, the load-bearing structure and hinges are incorporated into one single square column: the hinge plays a structural role and at the same time heavily influences the system.

DIMENSIONS

L: Min 55 - Max 179 cm
P: Min 30 - Max 118 cm
H: Min 150 - Max 230 cm
H standard: 196 cm

PLUS

S.M.F. (EASILY MOUNTING SYSTEM)

It is a patented system combined to an innovative extensibility solution thus allowing an ideal panel positioning and at the same time avoiding the water leak.

MAGNETIC STRIPS

The doors closing is guaranteed by the magnetic strips. The perfect adhesion of the magnetic elements offers the best waterproof.

CUSTOM MADE (CM BY CM)

Vismaravetro's shower enclosures can be customized, cm by cm. to better satisfy all the needs of any architectural situation

WIDE RANGE OF KNOBS AND HINGES

Do you prefer round hinges? Or do you want a glass knob? No problem: the whole series Sintesi can be customized with a wide range of knobs, handles and hinges of your choice.

PRODUCT WITH CE MARKING

Product conforming to EN14428:2015 with CE marking

LINEAR DESIGN

Collection characterized by an extremely linear design. Despite being very rich, the complete absence of rounded elements makes it extremely essential for a shower enclosure, which goes well with elements of furniture by the rectilinear forms.

EXTERNAL TOWEL HOLDER

On fixed elements, it is possible to install a towel holder.

TPA TREATMENT PREVENTING LIMESCALE

Vismaravetro uses an innovative technology "TPA" for protecting the glass surfaces of shower enclosures. The glass surface is treated with a polymer which limits the adhesive properties of residues such as limescale, grease and soap deposits. The TPA treatment helps with the cleaning and removal of the lime scale deposits and residues from the glass.

AVAILABLE WITH BLACK RUBBER SEALS (PROFILES 09 AND 39)

Products realized with Matt Black (09) or Metal Gun (39) finishes are equipped with black rubber seals
