Traditional style shower enclosure for corner shower made by an opening element GLZ (one fixed element and one 180° pivot door aligned) with a side element GLG. The top arched profile, the elegant finishes of profiles and glasses, the choice among several refined accessories highlight the decorative attitude of this shower enclosure.

Gold is a classic yet high-profile shower enclosure system, equipped with high-tech features and the finest materials, enhanced by luxury aesthetic details that evoke Italy's cultural tradition. It is a shower enclosure collection that conveys a classic yet highly sophisticated style, which at the same time reflects masterful design and production skills. Gold is the symbol of luxury, welcome beauty and supreme splendour. With the Gold Series, we want to celebrate the wonder of Italian beauty around the world.

TPA TREATMENT PREVENTING LIMESCALE

Vismaravetro uses an innovative technology "TPA" for protecting the glass surfaces of shower enclosures. The glass surface is treated with a polymer which limits the adhesive properties of residues such as limescale, grease and soap deposits. The TPA treatment helps with the cleaning and removal of the lime scale deposits and residues from the glass.
