

Custom-made hinged shower enclosure

HN / SERIE F

WHERE TO BUY

© Copyright 2024 Vismaravetro srl

Made-to-measure frameless door for recessed shower tray. A wall profile is installed on the closing side providing adjustment of up to 5 mm extension or for slightly out-of-plumb walls. The free edge of the glass is fitted with a sealing gasket to provide firm closure against the profile. An additional water-stop profile is supplied in the package, which can be used on the edge of the shower tray in order to achieve the best seal. SIS™ simplified installation: a thoroughly tested system with a high-density polystyrene template ensures correct door positioning.

Serie F is a collection of shower enclosures that evokes the origins of this sector, when shower enclosures were essentially only formed by glass and hinges on the wall, but at the same time it encapsulates over 70 years of experience in the sector. We are rather proud of this collection: they are unique shower enclosures in the true sense of the word, because they are custom-made to the millimetre, designed to meet needs, dreams and desires which go beyond the ordinary.

Design Centro Progetti Vismara

DIMENSIONS

L: Min 55 - Max 90 cm
H: Min 170 - Max 300 cm
H standard: 210 cm

PLUS

BRASS HINGES WITH INWARD AND OUTWARD OPENING

Brass hinges with inward and outward opening. The door is held in the central (closed) position by a spring mechanism, which offers $\pm 10^\circ$ adjustment.

MADE TO MEASURE TO MILLIMETRE PRECISION

All elements of the Serie F Collection are made to measure to the millimetre. We create unique pieces to perfectly meet the dimensional requirements of each individual shower recess. Heights greater than 210 cm or widths greater than 90 cm will require a third hinge. Visit the website www.vism.it/cmm to determine the maximum size of the door (max. height 300 cm).

SIS™ SIMPLE INSTALLATION SYSTEM

SIS is a system which simplifies the installation of Serie F Collection doors. This door type normally requires great care when drilling the walls, as if this is not done perfectly, it can compromise the entire shower installation. A special high-density polystyrene template makes installation quick and easy. More information: www.vism.it/sis

MAXIMUM HEIGHTS OF UP TO 300 CM

Maximum heights of up to 300 cm can be achieved with the addition of a third hinge (more information: www.vism.it/cmm).

TPA TREATMENT PREVENTING LIMESCALE

Vismaravetro uses an innovative technology "TPA" for protecting the glass surfaces of shower enclosures. The glass surface is treated with a polymer which limits the adhesive properties of residues such as limescale, grease and soap deposits. The TPA treatment helps with the cleaning and removal of the lime scale deposits and residues from the glass.

AVAILABLE WITH BLACK RUBBER SEALS (PROFILES 09 AND 39)

Products realized with Matt Black (09) or Metal Gun (39) finishes are equipped with black rubber seals

COMPONENTS

HN

HINGED DOOR FOR RECESS SHOWER ENCLOSURE. MADE TO MEASURE TO MILLIMETRE PRECISION. THE WALLS OF THE RECESS MUST BE OF MASONRY CONSTRUCTION AND PERFECTLY PLUMB. MAXIMUM HEIGHTS OF UP TO 300 CM CAN BE ACHIEVED WITH THE ADDITION OF A THIRD HINGE (MORE INFORMATION: WWW.VISM.IT/CMM).

CHARACTERISTICS

- Suitable only for perfectly vertical walls.
- Made to measure to millimetre precision
- SIS™ Simple Installation System
- Brass hinges with inward and outward opening
- Maximum heights of up to 300 cm
- Vertical closing profile providing 5 mm of adjustment
- Extensible 10 mm.

MATERIALS

- Tempered safety glass 8 mm.
- Brass hinges with inward and outward opening
