## PIVOT SHOWER ENCLOSURE

KN / LINK

WHERE TO BUY

© Copyright 2024 Vismaravetro srl

Semi-frameless shower enclosure, with a pivot door (180°) and up&down movement.

Link is the result of a research aimed at integrating lines and space to the continuity between function and structure. A superior technological evolution, pure expression of the design in its leanest and less permissive definition: less is more, or even better, if there is nothing more to be taken away then there is nothing more to be added.

It is a patented system combined to an innovative extensibility solution thus allowing an ideal panel positioning and at the same time avoiding the water leak.

---

TPA TREATMENT PREVENTING LIMESCALE

Vismaravetro uses a innovative technology "TPA" for protecting the glass surfaces of shower enclosures. The glass surface is treated with a polymer which limits the adhesive properties of residues such as limescale, grease and soap deposits. The TPA treatment helps with the cleaning and removal of the lime scale deposits and residues from the glass.
