

Hinged door shower wall for bathtubs

HV / BATHSCREENS

DOVE ACQUISTARE

© Copyright 2024 Vismaravetro srl

Frameless hinged bath screen. Made to measure; no adjustment is possible, meaning that the back wall against the tub must be perfectly plumb. An additional water-stop profile is supplied in the package, which can be used on the lip of the bathtub in order to achieve the best seal. SIS™ simplified installation: a thoroughly tested system with a high-density polystyrene template ensures correct door positioning.

With our usual attention to the next step in bathrooms, Vismaravetro has created a series of shower walls for bathtubs. They are tempered glass panels in various sizes, designed to complete the functionality of bathtubs. The glass panel lets you use the bathtub like a real shower, limiting water spray and leaks while you're having a shower.

Design Centro Progetti Vismara

DIMENSIONI

L: Min 55 - Max 100 cm
H: Min 140 - Max 160 cm
H standard: 150 cm

PLUS

BRASS HINGES WITH INWARD AND OUTWARD OPENING

Brass hinges with inward and outward opening. The door is held in the central (closed) position by a spring mechanism, which offers $\pm 10^\circ$ adjustment.

MADE TO MEASURE TO MILLIMETRE PRECISION

All elements of the Serie F Collection are made to measure to the millimetre. We create unique pieces to perfectly meet the dimensional requirements of each individual shower recess. Heights greater than 210 cm or widths greater than 90 cm will require a third hinge. Visit the website www.vism.it/cmm to determine the maximum size of the door (max. height 300 cm).

SIS™ SIMPLE INSTALLATION SYSTEM

SIS is a system which simplifies the installation of Serie F Collection doors. This door type normally requires great care when drilling the walls, as if this is not done perfectly, it can compromise the entire shower installation. A special high-density polystyrene template makes installation quick and easy. More information: www.vism.it/sis

TPA TREATMENT PREVENTING LIMESCALE

Vismaravetro uses a innovative technology "TPA" for protecting the glass surfaces of shower enclosures. The glass surface is treated with a polymer which limits the adhesive properties of residues such as limescale, grease and soap deposits. The TPA treatment helps with the cleaning and removal of the lime scale deposits and residues from the glass.

COMPONENTI

HV

HINGED FRAMELESS GLASS BATH SCREEN.
MADE TO MEASURE TO MILLIMETRE
PRECISION. THE WALL MUST BE OF MASONRY
CONSTRUCTION AND PERFECTLY PLUMB.
MAXIMUM WIDTHS OF UP TO 100 CM CAN BE
ACHIEVED WITH THE ADDITION OF A THIRD
HINGE.

CARATTERISTICHE

- Suitable only for perfectly vertical walls.
- Made to measure to millimetre precision
- SIS™ Simple Installation System
- Brass hinges with inward and outward opening
- Maximum widths of up to 100 cm

MATERIALI

- Brass hinges with inward and outward opening
- Tempered safety glass 8 mm.
